June 2018

Respected Mr./Ms. Reader,

Here is a time saving short cover letter to compliment my Resumé/C.V.

Having graduated with Honors from the University of Toledo, OH, USA, while working with great minds at Aramark Dining Services (Ohio), I have had an immense pleasure of serving at iSpy Surveillance Systems and Solutions in India for this past year.

Familiarized with the why's, how's and when's of the service industry, I now aim at furthering my agenda to gain expertise in every aspect of Management and Service. which is only possible at an institution that is great melting pot of talents, and I find your institution to be an exceptional place to advance my journey.

I would be happy to provide you with any further information that you may require in this regard. I now look forward to hearing from you and would be happy to meet you to understand next steps from here on. Thanking you in advance for your time.

Yours Respectfully,

**Mihir A Shah**
